

Developer Name: IntrinsicQ Specialty Solutions (IQSS)
 Product Name: UroChartEHR
 Product Version: 8.6
 2015 Edition – Modular Ambulatory
 CHPL Product Number: Pending
 ONC-ACB Certification ID: Pending
 Date Certified: Pending

Capability

Urology focused Electronic Medical Record

[Relevant certification criteria: §§ 170.315(a)1-15; (b)1-6; (c)1; (d)1-9; (e)1-3; (f)(4); (f)(7); (g)2-9]

Clinical Quality Measures certified:
 68; 69; 127; 129; 130; 134; 138; 156; 164; 165; 166

Additional Software Relied Upon for Certification

Additional Software	Applicable Criteria	Functionality provided
Surescripts	ONC 170.315 a4, a10, b3	ePrescribing and EPCS, drug formulary checking
Dr. First	ONC 170.315 a4, a10, b3	ePrescribing and EPCS, drug formulary checking Drug-drug, drug-allergy interaction checks
First DataBank	ONC 170.315 a1, a4, a7, a8, a9, a10, b2, b3, b4, b5, b6, c1, e1, g6, g7, g8, g9	Medication content for CPOE, CCDA, CQM, and Clinical Information Reconciliation; interaction checking for CDS and Drug Formulary
Windows time service	ONC 170.315 d2, e1	Time synchronization
Qvera Interface Engine	ONC 170.315 b1, b2, b4, b6, e1, g7, g8, g9	CCDA document creation; Direct transmission (inbound and outbound)
MedlinePlus	ONC 170.315 a9 a13	Online Education Resources accessed using "Info Button" standard
* BI Clinical	ONC 170.315 c1	Clinical Quality Measures
IntrinsicQ Specialty Solutions Patient Portal	ONC 170.315 e1, e2, e3, g2	Patient Portal for View, Download, Transmit; Patient Health Information Capture; and Secure Messaging. Automated Measures for: Patient Electronic Access Patient-Generated Health Information, Secure Messaging and VDT
* MedAllies	ONC 170.315 b1, b2, b5, e1, g2	HISP for Direct (VDT, Transitions of Care objectives) Automated Measures for Transitions of Care, Receive and Incorporate
HealthLanguage	ONC 170.315 a6	SNOMED codes for Problem List

* Note for attesting providers:

In addition to using UroChartEHR, providers attesting to MU3/MIPS must report using these applications:

- BI Clinical for 170.315 c2, c3
- MedAllies for 170.315 h2

Description of Capability

UroChartEHR is the leading software solution designed specifically for Urology. UroChartEHR is a clinical management solution addressing urologist's key areas of focus and includes rich clinical content in the form of urology focused visit templates, flowcharts and documentation aids in addition to the core EHR functionality needed by any busy practice such as ePrescribing, Direct messaging, task routing, clinical decision support and patient education. There is a patient portal available for use by patients, approved care providers and clinical staff.

Disclaimer

UroChartEHR Version 8.2, is ONC Health IT Certified as a Modular EHR. This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Types of Costs or Fees to be paid by a user for the capability

EMR software license fee (may or may not be monthly subscription payments, if not one-time fee)

Annual software license maintenance fee for support/application upgrades

Additional Types of Costs or Fees - Additional types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of:

- The capability.
 - *Professional Service one-time fees for Implementation, Training, and Consulting.*
 - *Patient Portal license (may or may not be monthly subscription payments, if not one-time fee). Professional Service one-time fees for Implementation, Training, and Consulting related to Patient Portal.*
 - *ePrescribing Annual maintenance fee.*
Initial setup fee and annual maintenance fee per provider for Identity proofing of non EPCS prescribers.
 - *EPCS for ePrescribing controlled substances ongoing fee (monthly subscription of which we charge 1 year full term amount). EPCS initial one-time implementation fee.*
 - *Direct Messaging (monthly subscription of which we charge 1 year full term amount). Professional Service one-time fees for Implementation and Training related to Direct Messaging.*
 - *Interface setup and annual maintenance fees per interface- practice management and labs*
 - *Data conversion from and/or to other EMR systems (if applicable.)*
 - *Device interfaces one-time and setup fees per device interface.*
 - *Hosting access and technical recurring fees.*
 - *Annual subscription fees per provider for creation and submission of files to supported registries for the purpose of MU reporting.*
 - *Development and maintenance fees (and possibly annual subscription fees) for the creation, export and maintenance of any data files related to registry or governmental agency reporting that have not previously been approved or offered by UroChart.*
 - *Additional Code User fees (if applicable).*
- Any data generated in the course of using the capability.
 - *Reporting is available as part of the application to provide a range of operational and mandatory reports; however, any additional reporting services that are agreed to are subject to additional fees.*
 - *Additional recurring fees for technical support (if needed) when customer accesses data warehouse or needs other technical support (but no additional charge for customer access to data).*
 - *Additional recurring fees for data consultation or analytics.*
 - *Third party access to data warehouse will require an access agreement and additional fees based on need of user and third party.*

Limitations (Contractual / Business Practices) - Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter:

- In the implementation or use of the capability.
 - *Only licensed users may use the capability, and the use is subject to license restrictions as set forth in the software license and support services agreement.*
 - *Direct messaging is limited to the use of the 1 HISP currently contracted for UroChart.*
 - *UroChartEHR has an approved list of registries it will support for the purpose of registry reporting*
- In connection with the data generated in the course of using the capability.
 - *Third party access to data warehouse will require an access agreement and additional fees based on need of user and third party.*
 - *Use of third party codes (e.g. CPT, HCPCS, and ICD-10) are subject to third-party licensor restrictions on the use of such codes.*
 - *Access to proprietary data dictionaries or databases of IQSS is subject to separate license terms and conditions.*

Limitations (Technical / Practical) - Limitations of a technical, technological or practical nature that a user may encounter that could:

- Prevent or impair the successful implementation, configuration, customization, maintenance, support or use of the capability.
 - *The ability to send and receive Direct messages is currently limited to the registered provider.*
 - *Changes in internal workflows and procedures may be required for user to fully implement and use the capability.*
 - *Requirements of governmental agencies with respect to public health reporting may not be previously approved or offered by UroChart.*
- Prevent or limit the use, exchange, or portability of any data generated in the course of using the capability.
 - *Direct messaging is limited to 1 HISP.*
- Providers attesting to MU3/MIPS using UroChartEHR must report to using these applications:
 - *BI Clinical for 170.315 c2, c3 (CQM import, calculate, report)*
 - *MedAllies for 170.315 h2 (Send and receive via Direct, Edge Protocol, XDR/XDM)*

 ONC-ACB Certification ID: 15.04.04.2978.UroC.82.01.1.180719
 Date Certified: 07/19/2018

Capability

Urology focused Electronic Medical Record

[Relevant certification criteria: §§ 170.315(a)1-15; (b)1-6; (c)1; (d)1-9; (e)1-3; (f)(4); (f)(7); (g)2-9]

Clinical Quality Measures certified:
 68; 69; 127; 129; 130; 134; 138; 156; 164; 165; 166

Additional Software Relied Upon for Certification

Additional Software	Applicable Criteria	Functionality provided
Surescripts	ONC 170.315 a4, a10, b3	ePrescribing and EPCS, drug formulary checking
Dr. First	ONC 170.315 a4, a10, b3	ePrescribing and EPCS, drug formulary checking Drug-drug, drug-allergy interaction checks
First DataBank	ONC 170.315 a1, a4, a7, a8, a9, a10, b2, b3, b4, b5, b6, c1, e1, g6, g7, g8, g9	Medication content for CPOE, CCDA, CQM, and Clinical Information Reconciliation; interaction checking for CDS and Drug Formulary
Windows time service	ONC 170.315 d2, e1	Time synchronization
Qvera Interface Engine	ONC 170.315 b1, b2, b4, b6, e1, g7, g8, g9	CCDA document creation; Direct transmission (inbound and outbound)
MedlinePlus	ONC 170.315 a9 a13	Online Education Resources accessed using "Info Button" standard
* BI Clinical	ONC 170.315 c1	Clinical Quality Measures
IntrinsicQ Specialty Solutions Patient Portal	ONC 170.315 e1, e2, e3, g2	Patient Portal for View, Download, Transmit; Patient Health Information Capture; and Secure Messaging. Automated Measures for: Patient Electronic Access Patient-Generated Health Information, Secure Messaging and VDT
* MedAllies	ONC 170.315 b1, b2, b5, e1, g2	HISP for Direct (VDT, Transitions of Care objectives) Automated Measures for Transitions of Care, Receive and Incorporate
HealthLanguage	ONC 170.315 a6	SNOMED codes for Problem List

* Note for attesting providers:

In addition to using UroChartEHR, providers attesting to MU3/MIPS must report using these applications:

- BI Clinical for 170.315 c2, c3
- MedAllies for 170.315 h2

Description of Capability

UroChartEHR is the leading software solution designed specifically for Urology. UroChartEHR is a clinical management solution addressing urologist's key areas of focus and includes rich clinical content in the form of urology focused visit templates, flowcharts and documentation aids in addition to the core EHR functionality needed by any busy practice such as ePrescribing, Direct messaging, task routing, clinical decision support and patient education. There is a patient portal available for use by patients, approved care providers and clinical staff.

Disclaimer

UroChartEHR Version 8.2, is ONC Health IT Certified as a Modular EHR. This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Types of Costs or Fees to be paid by a user for the capability

EMR software license fee (may or may not be monthly subscription payments, if not one-time fee)

Annual software license maintenance fee for support/application upgrades

Additional Types of Costs or Fees - Additional types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of:

- The capability.
 - *Professional Service one-time fees for Implementation, Training, and Consulting.*
 - *Patient Portal license (may or may not be monthly subscription payments, if not one-time fee). Professional Service one-time fees for Implementation, Training, and Consulting related to Patient Portal.*
 - *ePrescribing Annual maintenance fee.*
Initial setup fee and annual maintenance fee per provider for Identity proofing of non EPCS prescribers.
 - *EPCS for ePrescribing controlled substances ongoing fee (monthly subscription of which we charge 1 year full term amount). EPCS initial one-time implementation fee.*
 - *Direct Messaging (monthly subscription of which we charge 1 year full term amount). Professional Service one-time fees for Implementation and Training related to Direct Messaging.*
 - *Interface setup and annual maintenance fees per interface- practice management and labs*
 - *Data conversion from and/or to other EMR systems (if applicable.)*
 - *Device interfaces one-time and setup fees per device interface.*
 - *Hosting access and technical recurring fees.*
 - *Annual subscription fees per provider for creation and submission of files to supported registries for the purpose of MU reporting.*
 - *Development and maintenance fees (and possibly annual subscription fees) for the creation, export and maintenance of any data files related to registry or governmental agency reporting that have not previously been approved or offered by UroChart.*
 - *Additional Code User fees (if applicable).*
- Any data generated in the course of using the capability.
 - *Reporting is available as part of the application to provide a range of operational and mandatory reports; however, any additional reporting services that are agreed to are subject to additional fees.*
 - *Additional recurring fees for technical support (if needed) when customer accesses data warehouse or needs other technical support (but no additional charge for customer access to data).*
 - *Additional recurring fees for data consultation or analytics.*
 - *Third party access to data warehouse will require an access agreement and additional fees based on need of user and third party.*

Limitations (Contractual / Business Practices) - Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter:

- In the implementation or use of the capability.
 - *Only licensed users may use the capability, and the use is subject to license restrictions as set forth in the software license and support services agreement.*
 - *Direct messaging is limited to the use of the 1 HISP currently contracted for UroChart.*
 - *UroChartEHR has an approved list of registries it will support for the purpose of registry reporting*
- In connection with the data generated in the course of using the capability.
 - *Third party access to data warehouse will require an access agreement and additional fees based on need of user and third party.*
 - *Use of third party codes (e.g. CPT, HCPCS, and ICD-10) are subject to third-party licensor restrictions on the use of such codes.*
 - *Access to proprietary data dictionaries or databases of IQSS is subject to separate license terms and conditions.*

Limitations (Technical / Practical) - Limitations of a technical, technological or practical nature that a user may encounter that could:

- Prevent or impair the successful implementation, configuration, customization, maintenance, support or use of the capability.
 - *The ability to send and receive Direct messages is currently limited to the registered provider.*
 - *Changes in internal workflows and procedures may be required for user to fully implement and use the capability.*
 - *Requirements of governmental agencies with respect to public health reporting may not be previously approved or offered by UroChart.*
- Prevent or limit the use, exchange, or portability of any data generated in the course of using the capability.
 - *Direct messaging is limited to 1 HISP.*
- Providers attesting to MU3/MIPS using UroChartEHR must report to using these applications:
 - *BI Clinical for 170.315 c2, c3 (CQM import, calculate, report)*
 - *MedAllies for 170.315 h2 (Send and receive via Direct, Edge Protocol, XDR/XDM)*
