

# InfoDive®

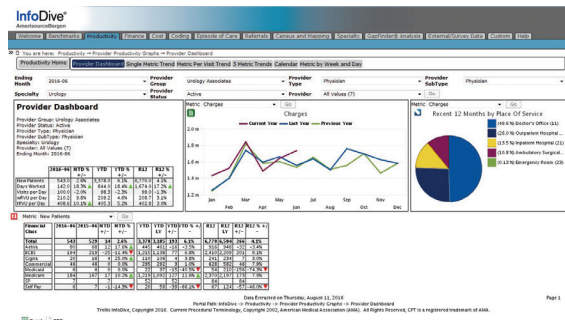

AmerisourceBergen

## Business Intelligence for Medical Practices

Information is a powerful tool — but only if it's at your fingertips. InfoDive® gives you instant access to insightful, actionable information about how your practice is performing. This web-based business intelligence solution allows you to quickly and easily analyze your internal data and compare your practice to others in a variety of areas including coding, productivity, marketing, revenue collection and more.

### With InfoDive you can:

- **Optimize revenue and profitability**
  - Leverage your data assets during payer negotiations
  - Compile robust data to support alternative payment models
- **Monitor compliance**
  - Reduce audit risk
  - Compare coding patterns against benchmarks
- **Measure productivity**
  - Multiple metrics including RVUs
- **Benchmark by specialty**
- **Target marketing efforts**
  - with visibility into referral data and patient demographics

### Key features

- Robust internal and external benchmarking data
- Automated data updates with little staff time required
- Complimentary monthly educational webinars
- No software to install
- Easy to use
- Pre-packaged powerful business intelligence key report packets automatically delivered in PDF format
- Flexible user interface allows easy “slicing and dicing” of data
- Fully secure
- HIPAA compliant

## InfoDive changes the way you manage your business
